

RAPID DNA IN THE BOOKING STATION

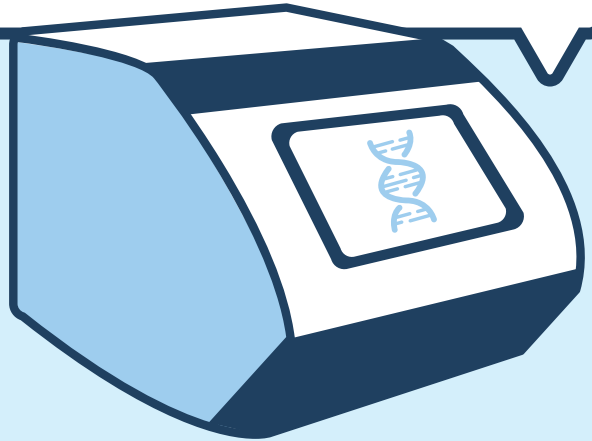

Arrestee's cheek swab is taken at booking station.

BOOKING STATION

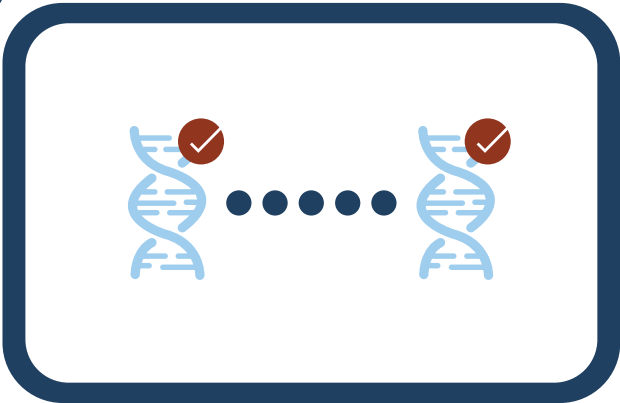

Cheek swab is placed into the *Rapid DNA* machine.

CODIS

Following analysis in the *Rapid DNA* machine, the arrestee's DNA profile is enrolled in CODIS.

The arresting/booking agency and the investigating agency are notified of the hit via NLETS.*

Within minutes, the arrestee's DNA profile is searched against watchlisted DNA profiles from unsolved crimes.
